Driven and self-learning Mathematics and Computer Science sophomore at UC San Diego with experience in teaching. Completed and currently working on multiple personal projects to practice application in different languages. Looking to expand my experience and skills in either programming or teaching, and always learning.

Experience

(12/2019 – 06/2021) **Co-Founder**

Coding Club, Coding Summer Camp

➢ Taught over 50 middle school students the basics of programming using Java
➢ Created curriculum and helped create presentation material
➢ Co-created a free 3-week virtual programming summer camp and taught over 500 elementary – high school students across the world using Java
➢ Focused on inclusivity due to varying programming backgrounds among students
➢ Directly taught students every day

Education

(09/2021 – 06/2025) **Majoring in Mathematics – Computer Science (B.S, 2025)**

University of California – San Diego

GPA: 3.63

Relevant Coursework: Acc. Intro to Prog., Basic Data Struct. & OOD, Software Tools & Techniques, Intro to Diff. Eq.'s, Linear Algebra, Calc. & Analytic Geometry

Projects

(07/2022 – 08/2022) **Recall – Discord Bot / Website**

Created Recall, a bot using the node.js module discord.js, to store data using the Discord API in a SQL database. Created a website to display its features

Relevant Software: JS, Node.js, Discord.js, Sqlite3, HTML, CSS

Skills

Programming: Java, JavaScript, HTML, CSS, NodeJS, Bash, Python, C, C++

Data: SQL, MATLAB, Google Sheets, Excel
